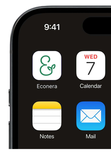
econera

&econera encourages students to adopt **sustainable** behaviors through **interactive** challenges and rewards, making the process more **engaging** and **motivating**.

econera



Problem Statement

Empathize 01

Students lack of **educational engaging** resources to support their personal journey as an environmentally friendly life.

Barriers 02

- Accessibility of opportunities
- Lack of personalized learning paths
- Lack of self-control organization
- Lack of motivation to change
- Not enough power of previous decisions
- Time management
- Time

Facilitators 03

- Peer support
- Gamification to organize IRL
- Rewards that complement efficiency
- Tracking progress and achievements
- Creating community programs

Define 04

Intrinsic and extrinsic motivation, sustainable behaviors, safe spaces for students, a little bit crazy like the gamification of my life, balance

Outstanding 05

Quizzes and **knowledge building**, fun with friends, **community** engagement, **freedom** of choice, badges, points, leaderboards, virtual ecosystem

US study from 2022 shows that students have a responsible behavior by increasing their knowledge about environmental issues, and they consider environmental protection very important.
